Side 1

Side 2

Your background color and/or image needs to go up to or beyond the Bleed Line on Dilco template.

Make sure all graphics stay within Dilco template Dieline so they aren't cut off. Leave a little "breathing" room inside Dieline.

Proof-read your text!  
Dilco is not responsible for errors.

! Don't merge or flatten layers. The Dilco Art Dept. needs all layers separate and intact.

Place artwork in tab of side 2 upside down to show when inserted in shelf channel!
