Dilco® 4" x 6" Low-Tack Vinyl Decal
and Cooler Cling Template

! Start your artwork file at 300 ppi (pixels per inch). Then add Dilco template on new top layer.

Do not scale or change your Dilco template. And make sure to keep it on its own layer.

Make sure all graphics stay within Dilco template Dieline so they aren't cut off. Leave a little "breathing" room inside Dieline.

Your background color and/or image needs to go up to or beyond the Bleed Line on Dilco template.

Proof-read your text! Dilco is not responsible for errors.

! Don't merge or flatten layers. The Dilco Art Dept. needs all layers separate and intact.
