

Start your artwork file at 300 ppi (pixels per inch). Then add Dilco template on new top layer.

Your background color and/or image needs to go up to or beyond the Bleed Line on Dilco template.

Make sure all graphics stay within Dilco template Dieline so they aren't cut off. Leave a little "breathing" room inside Dieline.

Dilco® 8" x 1.25" Shelf Strip Template

Proof-read your text!
Dilco is not responsible for errors.

714 998 5266

Do not scale or change your Dilco template. And make sure to keep it on its own layer.

Dieline
This is where artwork will be cut off

Bleed Line
Background must come to this line

Don't merge or flatten layers. The Dilco Art Dept. needs all layers separate and intact.
